No, Fee Rs. eight

License is hereby granted to Messrs..... .....for the storage in the licensed premises described below of.....gallons of dangerous petroleum in one tank subject to the rules for the storage of petroleum published in Notification No. I. C. 5415—Geol. 103-22-14, dated the 13th March 1924 as subsequently amended and to the further conditions attached hereto.

The..... .. ..192 .

Secretary to Government
or
the officer appointed by Government in this behalf

(Description of the licensed premises above referred to).

The licensed premises are situated at No..... ....and consist of a gas tight tank of a capacity of..... .....gallons sunk underground.

CONDITIONS OF LICENSE.

1. Except when absolutely necessary for the purposes of condition 8, or for testing the accuracy of a pump's discharge by means of a standard capacity measure or when the tank and pump are erected completely inside a Dangerous Petroleum Installation, petroleum shall on no account be filled from the tank or pump or from a barrel of oil supplied by Petroleum Companies to be filled into the tank into any receptacle other than that clamped or fitted to a Motor Vehicle.

2. The petroleum shall be stored in one gas tight metal tank of a capacity of..... gallons sunk completely underground in the position shown on plan submitted, and placed in a pit lined with concrete or brick in cement, the tank being packed round with sand, earth or clay so that no air space is left below ground level and the tank is not visible.

3. A pump or pumps shall be placed in the position shown on plan submitted, the pipe connection between the tank and the pump or pumps shall be placed underground and all joints, valves and cocks shall be gas tight.

4. For the purpose of charging the tanks of locomotives the petroleum shall be:

(*a*) Pumped through strong metal piping by means of approved pumps into above-ground measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions, and run thence through sound hose, fitted with secure self-closing cock and nozzle into the tanks of locomotives, or

(*b*) Pumped through strong metal piping by means of approved pumps into an above-ground service tank of approved capacity, fixed in an approved position, and run thence through strong metal piping into measuring tanks of a capacity not exceeding 30 gallons, fixed in approved positions, and thence through sound hose, fitted with secure self-closing cock and nozzle, into the tanks of locomotives, or

(*c*) pumped by means of approved measuring pumps, fixed in approved positions, through sound hose, fitted with secure tap and nozzle, into the tanks of locomotives.

5. All tanks pumps, pipes and fittings shall be strongly constructed of the best materials.

6. The petroleum shall enter the tank "under seal" and all tanks shall be fitted with a vent pipe leading into the open air, the open end being covered with brass gauze 32 mesh and fitted with a hood or the open end shall be fitted with an inlet valve and an exhaust valve.

7. If the licensing officer call upon the holder of a license by a notice in writing, to execute any repairs to the storage premises, which may, in the opinion of such officer be necessary for the safety of the said premises, the holder of the license shall execute the repairs within such period, not being less than one month from the date of receipt of the notice as may be fixed by the notice.

8. The tank before being repaired shall be cleared of all dangerous petroleum and of all dangerous vapours arising from the same. When a tank in position is open for cleaning or repairs, no lamps of any description either ordinary, electric, electric torches or electric cables or electric fans shall be brought near the manhole of the tank (the inside of the tank may be lighted by the use of mirrors).

9. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or section 6 of the Regulation.

10. All due precautions shall be taken for the prevention of unauthorised persons having access to any petroleum kept and to the vessels containing or having actually contained the same.

11. Every person managing or employed on or in connection with the storage premises shall abstain from any act whatever which tends to cause fire or explosion and which is not reasonably necessary and shall prevent any other person from doing such act. No fire or naked light shall be allowed to burn and no smoking or the lighting of any match shall be permitted within ten feet of a kerbside pump.

12. The storage premises shall be liable to inspection by an officer not being of lower rank than a Sub-Inspector of Police authorised by the Government in this behalf.

13. This license shall be held to cover the use of a portable kerb side pump outfit for a period of not more than one month in the place of the licensed permanent outfit in the event of the latter being out of order provided notice in writing is given to the Director of Insdustries and Commerce before the portable pump is taken into use.
